Name _____ Date _____

Social Studies · Climate change

What Is It?

Read and answer.

Climate change means the Earth is slowly getting warmer. Burning a lot of fuel adds gases that trap heat. This can melt glaciers and cause more floods and heatwaves. Pakistan is one of the countries most affected.

1. What is happening to the Earth?

_____

2. Name one effect. _____

Name _____ Date _____

Social Studies · Climate change

Helping the Planet

Circle what helps.
